eteam10 sent the requirements 10 Apr 2026, 1:28

REQUIREMENTS

1. If you're ordering for a business, what's your industry? (Optional)

Not answered

2. Is this order part of a bigger project you're working on? (Optional)

Not answered

3. Do you have a web hosting provider for this project? (Optional)

Not answered

4. Clear project requirements || Logo if you have || Color preference || Domain and hosting || Reference App or website link if you have || play store and app store account

scope of this project so we are aligned

This is NOT just a website. I need a working AI virtual receptionist demo system for HVAC and plumbing businesses that I can use to generate and close real clients.

Here are the exact deliverables:

1. LIVE CALL DEMO (MOST IMPORTANT)

- Set up a Twilio phone number
- When someone calls, it answers immediately with a realistic virtual receptionist voice
- Example greeting:
"Thanks for calling [Company Name], how can I help you today?"
- Include basic conversational responses (simple flow is fine)
- Include fallback like:
"Let me take your details and have someone call you back"

2. MISSED CALL → AUTOMATIC SMS

- If a call is missed, system sends instant text message
- Example:
"Hi, sorry we missed your call. This is [Company Name]. How can we help you today?"
- Must be fully working and tested

3. HIGH-CONVERTING LANDING PAGE

- Focused on HVAC and plumbing businesses
- Clean and simple design
- Include:
 - Headline: "Never Miss Another Call Again"
 - Short explanation of service
 - Pricing tiers:
 - \$199 Basic
 - \$299 Pro (recommended)
 - \$499 Premium
 - Call-to-action buttons

4. SIGN-UP / LEAD FLOW (VERY IMPORTANT)

- Add a "Get Demo" button on homepage

When user clicks:
Option A:

- Form collecting:
 - Name
 - Business Name
 - Phone

Email

Option B:

- Field where user enters phone number and receives an instant demo call

- Leads must be sent to me immediately via email and/or SMS

5. DEMO INTERACTION

- User can:

- Enter phone number → system calls them instantly

OR

- Call the demo number directly

- Must be fully connected to Twilio and working

6. LEAD NOTIFICATIONS

- When someone submits form or requests demo:

- I receive notification instantly (email and/or SMS)

7. SCRIPT EDITING ACCESS

- I need a simple way to edit:

- Greeting message

- SMS message

- Basic responses

- Can be simple backend, Google Sheet, or dashboard

8. DOMAIN CONNECTION

- Connect everything to my domain

- Ensure site is live and fully functional

9. MOBILE OPTIMIZATION

- Must work perfectly on mobile devices

IMPORTANT:

This system is for SALES. It must feel real, fast, and convincing — not just look good.

Before starting, please confirm:

- All of the above is included

- What tools you will use (Twilio, OpenAI, etc.)

- Timeline for delivery

- Any ongoing monthly costs

If anything is missing, please list it clearly so we can adjust before starting.

Once confirmed, we can move forward
